

Insulator Cover, 9" with Grip-All Adapter

by CHANCE Utility
Catalog ID: C4060182L

These covers provide a highly versatile system of covering up a wide variety of configurations on distribution systems. The insulator covers mate with conductor covers to cover pin-type or post-type insulator construction and also can be used with the deadend cover. The units virtually surround the hot parts and hardware to give the linemen extra protection when rubber gloving or using hot sticks. The insulator cover will couple with major brands of rubber line hose and insulator covers of the 25kV class. Insulator covers are made of high-density polyethylene and are bright orange in color. Conductor covers are 5 feet long and are available with a Grip-All adapter for hot stick application or without adapter for rubber glove application. Insulator covers are 21 inches long and 8.5 inches wide and are available in two heights: 6 inches and 9 inches from conductor to cover base to fit different size insulators, either with Grip-All adapter for hot stick application or without adapter for rubber glove application.

Product Details

General

Style	With Clampstick Adapter
UPC	096359020691

Dimensions

Length	9 in
Weight	6.125 lb

Electrical Ratings

Withstand Voltage	25 kV Phase-to-Phase
-------------------	----------------------

Logistics

Pallet Quantity	36 EA
-----------------	-------
